

Mordovian State University

List of additional professional professional development programs offered by the Center for Continuing Medical Professional Education of the Institute of Medicine

	Program Name	Study load in academic hours	Формат проведения
1.	Airborne infections	36	on-line
2.	Algorithm of management of women with extragenital pathologic conditions during pregnancy, in labor and delivery, and afterwards. Ways for decreasing maternal mortality	36	on-line
3.	Allergic dermatoses: modern approaches to diagnosis and treatment	36	on-line
4.	Anesthesia, intensive care and resuscitation in obstetric and gynecological hospitals	36	full-time on-site
5.	Benign diseases of female reproductive organs	36	on-line
6.	Chronic pain syndrome in diseases of the musculoskeletal system	36	on-line
7.	Clinical obstetrics (practical course using birth process simulators)	36	full-time on-site
8.	Current issues in dermatology	36	on-line
9.	Current issues of antithrombotic therapy in clinical practice	36	on-line
10.	Current issues of diabetology	36	on-line
11.	Current issues of diagnostics and treatment of biliary tract pathology	36	on-line
12.	Current issues of diagnostics and treatment of bronchoobstructive syndrome	36	on-line

13.	Current issues of diagnostics and treatment of destructive lung diseases	36	on-line
14.	Current issues of diagnostics and treatment of disseminated lung diseases	36	on-line
15.	Current issues of diagnostics and treatment of esophageal diseases	36	on-line
16.	Current issues of diagnostics and treatment of focal infiltrative lung diseases	36	on-line
17.	Current issues of diagnostics and treatment of gastric and duodenal diseases	36	on-line
18.	Current issues of diagnostics and treatment of intestinal pathologic conditions	36	on-line
19.	Current issues of infectious dermatology	36	on-line
20.	Current issues of mammography	36	on-line
21.	Current issues of modern venereology	36	on-line
22.	Current issues of neuro-ophthalmology	36	on-line
23.	Current issues of prevention, diagnosis and treatment of COVID-19 coronavirus infection	36	on-line
24.	Current issues of school nutrition in clinical practice	36	on-line
25.	Current Public Health Issues	36	on-line
26.	Diagnosis and treatment of diabetes mellitus	36	on-line
27.	Differential diagnosis in electrocardiography	36	on-line
28.	Differential diagnosis in pleural effusion	36	on-line

29.	Diseases of the adrenal glands and hypothalamic-pituitary system	36	on-line
30.	Emergency conditions in obstetrics and gynecology	36	on-line
31.	Especially dangerous infections	36	on-line
32.	Heart rhythm disorders: current issues	36	on-line
33.	Holter ECG monitoring: selected issues	36	on-line
34.	Infusion therapy. Clinical nutrition	36	on-line
35.	Intensive care in neonatology: practical skills and techniques	36	full-time on-site
36.	International standards for cardiopulmonary resuscitation	72	full-time on-site, part-time with distant learning technologies
37.	Intra-articular injections	36	on-line
38.	Issues of HIV prevention, diagnosis and treatment in the context of current trends	36	on-line
39.	Liver diseases in clinical practice	36	on-line
40.	Medical aid for musculoskeletal system trauma	36	on-line
41.	Medical rehabilitation for novel coronavirus infection (COVID-19)	36	on-line
42.	Modern approaches to the technology of schoolchildren's nutrition organization	36	on-line
43.	Modern aspects of immunotherapy and and vaccinoprophylaxis in clinical practice	36	on-line
44.	Modern issues of dietology in the practice of a diet nurse	36	on-line

45.	Modern principles of rational nutrition of schoolchildren	36	on-line
46.	Monitoring in anesthesiology, resuscitation and intensive therapy	72	full-time on-site, part-time with distant learning technologies
47.	Neuroendocrine pathology in obstetrics and gynecology	36	on-line
48.	Neurological complications of endocrine disorders	36	on-line
49.	Nutrition of healthy and ill children during the first year of life	36	on-line
50.	Oncological awareness in the practice of an obstetrician and gynecologist	36	on-line
51.	Pathologic conditions of a newborn's endocrine system	36	on-line
52.	Pathologic conditions of thyroid and parathyroid glands	36	on-line
53.	Postcovid syndrome and long-covid syndrome: peculiarities of diagnosis and treatment	36	on-line
54.	Prevention of occupational burnout of medical professionals	36	on-line
55.	Respiratory support in intensive care	36	on-line
56.	Selected Issues in Cardiology	36	on-line
57.	Selected issues in infectious diseases	36	on-line
58.	Selected issues of diagnostics and treatment of non-coronary-dependent heart diseases	36	on-line
59.	Selected issues of functional diagnostics in cardiology	36	on-line
60.	Selected issues of functional diagnostics in neurology	36	on-line

61.	Strategic and tactical issues in rationalizing the use of antimicrobials and in overcoming antibiotic resistance	36	on-line
62.	Transcranial Doppler ultrasound	36	on-line
63.	Ultrasonographic diagnostics of the vascular system	36	on-line
64.	Ultrasound diagnosis of diseases and defects of the urinary system	36	on-line
65.	Ultrasound diagnosis of urgent abdominal disorders	36	on-line
66.	Ultrasound diagnostics in cardiology	36	on-line
67.	Ultrasound diagnostics of diseases of superficially located organs	36	on-line
